CHASE & DESIRAE

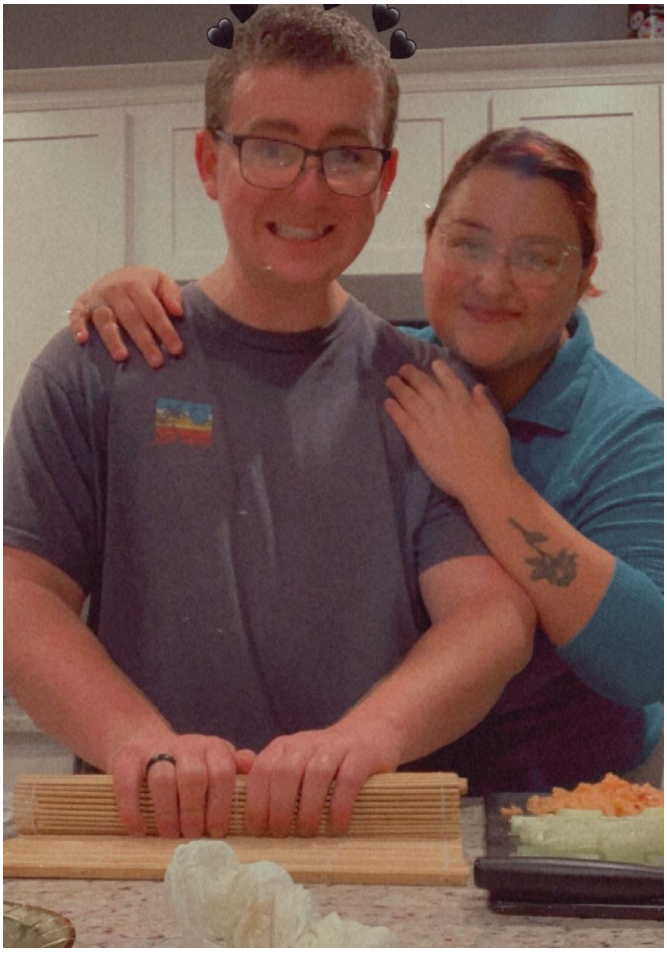
THANK YOU

We want to start by thanking you for taking time to get to know about us and our family. We know you are doing what is best for your baby and we commend you for it. Thank you for also being selfless and allowing us to have a family of our own finally. You are truly a blessing to us.

WHY ADOPTION?

We are firm believers that everything happens for a reason. That's why we think we were meant to adopt. Desirae was diagnosed with PCOS, which has made her unable to birth a child naturally. Although we have had heartbreak and experienced pain through losing a child, it has only made adoption feel more right for our family. Adoption isn't easy but making the choice to adopt was.

OUR STORY



We met through online in 2017. We talked online for months before actually going on our first date. Both of us had never dated or even went on a date. It was definitely love on the second date, because Chase talked the entire time on the first. We were married in 2019. Our honeymoon was in California, that's where we talked about someday moving to a beach. Now we live in the Panhandle of FL. We're best friends & can't imagine our lives without one another. We can't wait to show your baby all the love & devotion we have to offer.

- Going to beach
- Seeing new places
- Hanging with my friends
- Golfing

I was diagnosed with PCOS in 2019. I didn't know what it was at first but when I went to see a specialist, they told me I may never be able to give birth naturally. I was heart-broken. I tried infertility treatments for 3 years but nothing worked & if it did , I would only end up miscarrying. I've always wanted to be a mother ever since I was a little girl. I'm a devoted wife. Loving sister, daughter and friend who loves unconditionally. I know I would be an incredible mother to your baby, I just need to get the chance to show that. I'd be a stay-at-home mother. It would give your baby & I the max amount of bonding time and I would always be there whenever your baby needs me. I appreciate you reading & getting to know me better.

ALL ABOUT CHASE

Hobbies

- Fishing
- Video Games
- Movies
- Camping
- Boating
- Hiking

I love outdoor activities like going to the beach, seeing new things and trying new foods. I also do not mind being inside playing video games, board games, watching movies on those days you just don't want to be outside. Some words that describe me are funny, loving, loyal and a very hard worker, but most of all I want you to know I am so ready to be a father. I do everything for my family and cannot wait to pass on my knowledge, love and care to your baby. Your baby will be in the most loving, caring and most importantly, prepared home. Again thank you for taking the time to consider our family.

OUR PETS

Athena is a 4-year-old pit bull and beagle mix. She's the sweetest girl who loves to go on walks, being cuddled under her blankets, going to the park & playing with her little brother Thor. Athena has proven she can be a great big sister to your baby because she's gentle & sweet with all of our friends and families babies and young kids.

Thor is a 3-year-old pit bull & boxer mix. He's super energetic and loves people. He loves water, playing, sleeping, watching TV, getting cuddles & pets, and playing with Athena. He is going to be the best big brother to your baby. We know this because he has always been super gentle & sweet to every baby and kid he meets. Your baby will be no exception.

OUR FRIENDS

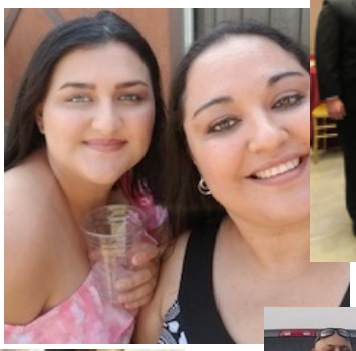
Chase and I share a friend group of a lot of amazing people who have been there with us through everything. They are all so ready to be aunts and uncles. They are all the most loyal, caring, respectful, supportive and funny people we have ever met. They also push us to be the best parents we can be by allowing us to be aunts and uncles to there kids.

CHASE'S FAMILY

My Dad and my Step-Mom, who I call Mom, raised 3 kids. I am the oldest. I have a younger sister we are 4 years apart and a younger brother who is 10 years younger than me. We are all very close. Growing up we would do everything together: eating, traveling and having fun. They are fully supportive of us adopting and are so excited. Thank you for giving us the opportunity to be parents. Your baby will have loads of love!

DESIRAE'S FAMILY

I have a brother who's 11 1/2 months older then I am. My mom is one of 10. My dad has 1 sister. I lost my Uncle on my mom's side & my grandma on my dad's side both just a few months before I was born. It took a massive toll on both sides of my family, but in the end it has made us closer since we share a similar loss. I would have been my grandmas only granddaughter & my uncle's oldest niece. On my dad's side I have 1 cousin. On my mom's side I currently have 56 cousins & counting. My family is always laughing & having a good time. They love throwing parties to show just how much they love you. We celebrate all holiday together and there is so much love and support to go around, they can't wait to show your baby



OUR HOME

We have a 4 bedroom, 3 bathroom, 2000 sq. ft home in the panhandle of Florida. We bought and built the house in 2021. Your baby will have their own room that has everything your baby will need to thrive & more. Both sides of our family have supported us and continue to support us. They are over the moon to have your baby in this family. We also have some of our best friends who are practically family living close by. Your baby deserves nothing but the absolute best & we are more then ready and prepared to do just that.

A FINAL NOTE TO YOU

We want to thank you from the bottom of our hearts for getting to know us. We understand your a mother who is doing whats best for your baby. We wish you and your child nothing but the best & hope you allow us to give your baby just that and more.
