and **LACEY**

"WE COULDN'T IMAGINE GROWING OUR FAMILY ANY OTHER WAY."

HELLO

it's so nice to meet you!

Thank you for taking the time to learn about us. We know this time is very difficult and confusing for you, and we are so grateful that you want to spend this time getting to know who we are. I know that we don't know each other, but we've been praying for you for a long time.

We admire your love and compassion for your child, and your courage to consider an adoption plan for your baby. We are sure this decision is very hard for you, but we are thankful that you have chosen life for your child. We are also so thankful that you are considering us as you make this decision.

We've known that we wanted to adopt since we were engaged. Lacey found out 6 years ago that she wouldn't be able to have children naturally, and the more we discussed our options to grow our family we felt God leading us to adoption. Now, we couldn't imagine growing our family any other way.

Just know that we are praying for you and your baby.

CHAD AND LACEY

OUR *Story*

Chad and I met in 2016, when I first met him, I knew he was something special. Falling in love with him was the easiest thing I've ever done. We spent as much time together as we could. Chad proposed on Christmas Eve 2017. Since then, we had the most special wedding and have settled into married life pretty easily. We are truly best friends and enjoy spending time together. We love to laugh and spend time at home with our three dogs. There's never a dull moment and I love that about our relationship.

Chad works in the Plant Engineering Department at UPS, and is going to school for his Civil Engineering Degree. I work as an Office Assistant in a busy CPA firm a few miles from our house. **We both enjoy what we do for a living, and our co-workers and supervisors are so supportive of our adoption journey. We can't wait to add a baby to our little family!**

MEET LACEY

as told by Chad

Lacey is one of the most compassionate and caring individuals that I know. I knew from day one that she was the "one." She is the most selfless person that I know. She would drop anything she is doing to help someone out. The strength she has in her is incredible. If she gets knocked down, she gets right back up stronger than ever. This is one of her many traits that I absolutely love about her. She somehow makes my bad days not that bad. I enjoy every day we get to spend time together. I am proud to be her husband and be able to call her my wife. She is truly my best friend. I do not think I could ask for a better wife to do this crazy thing called life with.

Lacey loves our 3 fur babies and is a great mama to them. On top of that she loves to cook and is an awesome cook. She can prepare anything that you ask her to and will also add her own flair to it to make it even better. She is also such a hard worker, she's an Office Assistant at a local CPA firm. She loves her job and the people she works for.

MEET CHAD

as told by Lacey

Chad is truly the smartest person I know. He amazes me daily with his ability to work and go to school and be so successful with both! He works for UPS in their Plant Engineering Department, and is going to school to get his engineering degree. He is such a kind and compassionate person, he has loved me and supported me through everything.

Chad has such a soft spot for children, the way he loves my god children is part of why I knew I wanted to marry him. He makes me laugh until my stomach hurts, and he always makes my days so much brighter. He is not only the best husband, but a wonderful son, uncle, and friend. I am so proud that I am his wife. I know that God made him just for me.

OUR *travels*

We enjoy going to the beach. Chad's family has a beach house in Seaside, FL. Chad has been going to that same house since he was little. We love the area and are so ready to share our love for the beach and Seaside with our future children. We also enjoy going to places closer to home. We enjoy going to Natchez and New Orleans. New Orleans is probably our favorite, it's the different foods and the culture that makes it so much fun.

HOME *sweet home*

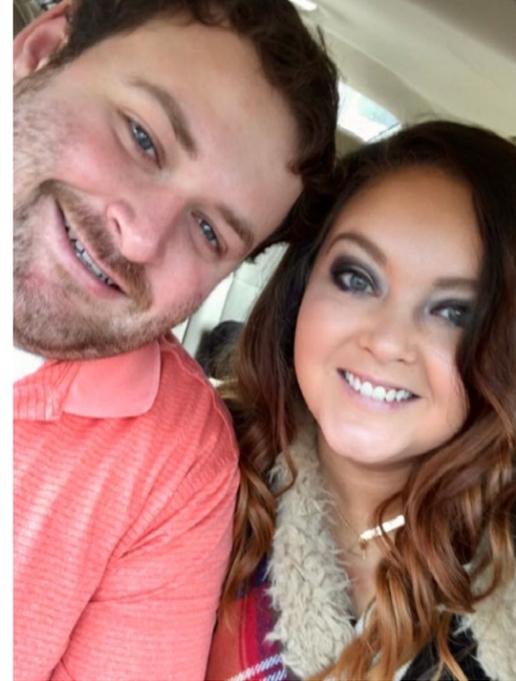

Our home is an older house in a quiet neighborhood, with great schools in the area both public and private. Lacey bought our home 6 years ago because of how safe the neighborhood is, and because of how close it is to her parents and grandparents. We have three bedrooms, two bathrooms, a large family room, and a big fenced in back yard. In one of our spare bedrooms we have started putting together a nursery for when we are blessed with a child. We can't wait to fill our home with laughter and lots of toys! We love our house because of how much room we have for a growing family. We also have a playground down the street from our home that we can't wait to use!

MEET *our pets*

We have three dogs that we love so much!

COPPER is a 6 year old bloodhound that is so sweet and laid back. He has the cutest howl, and he loves his 2 year old Labrador sister Saylor. They spend most of their time outside playing. **SAYLOR** is so cute and has such a funny personality. We also have our 4 year old Rat terrier, **RHETT** who is spoiled rotten. He is mostly an inside dog who loves to nap and snuggle!

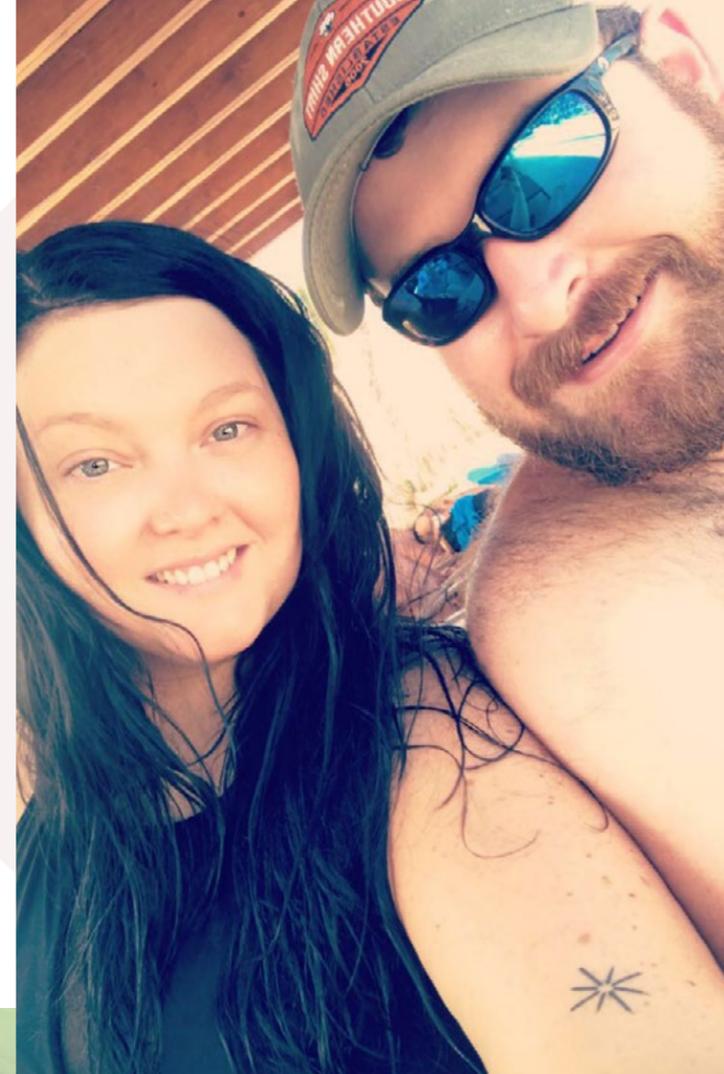

OUR family

We both have such supportive and loving extended families. Chad's parents live about 20 minutes away and Lacey's parents live two miles away. We spend a lot of time with both sides of our families. We recently became an Aunt and Uncle to our sweet nephew. Our families are so supportive of our adoption journey and can't wait to add a new member to our family!
